## ELECTRONIC MEDICAL RECORDS & YOUR HEALTH INFORMATION

Women's Health Clinic (WHC) uses an Electronic Medical Record (EMR). It includes information about you, your health, and the health care you receive from WHC.

If you receive care from another health care facility that uses the EMR, other health care providers can see some of your information:

- » name
- » address
- » Manitoba Health numbers
- » that you are a client at WHC

We believe you have the right to choose what information other clinics can see about you. Information about your medications and diagnoses are entered into the EMR section other clinics can see. Please let us know if you want us to hide it so others cannot see it.

WHC care providers may also be able to see information about health care you receive from other clinics that use the EMR. Any encounter notes made in your file are private to WHC and cannot be seen by any other clinics. We will view it only if we need the information for your care at WHC.

If you have any questions or concerns about your EMR information, please ask the WHC health care provider you see today.

*Note: There is also a provincial electronic record system open to all Manitoba health care providers. It has information about your prescriptions, medical tests (blood, urine, x-ray, MRI), and immunizations. If you have any questions or concerns, please call 1-855-203-4528.*
