

BABY TALK

BRING YOUR
BABY TO
A FREE
INTERACTIVE
WORKSHOP

How, when and what your baby learns about language

(and why maternal speech is so important)

Do you wonder whether your baby understands you when you talk?

Do you worry about whether your baby is meeting language milestones?

Are you curious about what to expect as your child learns to speak?

Have you wondered why we speak in a funny voice when we talk to babies and young children?

WITH MELANIE SODERSTROM

**Associate Professor, University of Manitoba
Psychology Department**

Director, Baby Language Lab

*Childminding available for children over 1
Each family gets a book of rhymes*

**November 21
10:00-11:30am**
