Rebecca McNutt

Healthy Relationship with Self¹

In the outline, write about things you do to take care of and nourish the different aspects of yourself.

The head: represents your mental health.

The heart area: represents your emotional health.

The rest of the body: represents your physical health.

The space around you: represents your spiritual health.

All of the different parts of ourselves connect and can affect each other. For example, getting regular sleep and moving our bodies in ways that we enjoy like dancing or sports is good for our physical health but also helps us emotionally. (8 marks)
