# TAKING YOUR PILLS

## TODAY - DAY 1

Today you took the abortion pill MIFEPRISTONE.

1 pill

Keep drinking plenty of fluids

## DAY 2 - 3 (24 - 48 hours after taking abortion pill)

If you are experiencing nausea or cramps, take the medication the doctor gave you as directed.

24 - 48 hours after taking MIFEPRISTONE (your first pill), take 4 pills of MISOPROSTOL.

Place 2 pills in the side of each cheek.

Wait 30 min.

Then swallow what's left of the pills.

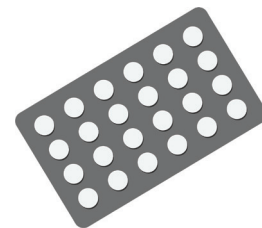

Cramps and bleeding will begin and usually last 30 min to 4 hours.

Take the medication the doctor gave you for pain and/or nausea as directed, if needed.

If you were given birth control pills, start them today.

## IN THE FOLLOWING DAYS

If you have cramps, take pain medication as needed.

Bleeding should slow down.

Cramps should go away.

You should feel back to normal.

REMINDER!  
You must have a phone or in-person follow-up.
